

COMMAND PERFORMANCE

Heart that weighs less than a pound,
that beats seventy times a minute;
Heart that carries two thousand gallons of blood every day,
fifty-five million in a lifetime;
Heart, awesome piece of architecture,
a tribute to the Great Architect;
Keep beating, heart, keep beating,
I have dreams to fulfill, and a long long march ahead
before I stop
for that eternal sleep.

poetry - G. Housman
music - W. Keene

~ music improvised and recorded from a mix of
several layers of voice and synthesized sounds
W.K.
